

Location: Čeľadice  
Contract Value: -  
Completion: 12/2023

A new storage plant for MINITÜB is currently under construction in Čeľadice, situated near Nitra.

The construction of the roof, steel structures, and facade of the plant are currently underway, with preparations for the outdoor network also being carried out. Upon completion in the summer, a new operational area will be available. Furthermore, plans to improve existing areas are in progress, which will include the development of additional approximately 3000 m<sup>2</sup> of paved areas.
